

Happy High Stool

STOOL

The Happy Stool range is constructed from mild steel rod with either a ply, solid timber or upholstered top called comfort line. The Stool frame is made up of four looping sections that are mig welded together to form a solid base offering strength, durability and personality. Resulting in a unique aesthetic available in a range of powder coat colours. The Happy High Stool is available in three different heights.

The Happy High Stool is best suited to your kitchen bench which is generally set at 900mm high.
